

FROG Token White Paper

Version 1.0 | 2025

1. Executive Summary

FROG Token is a next-generation crypto token combining meme culture with real utility. Our goal is to build a decentralized ecosystem where early supporters drive innovation, community growth, and token adoption.

2. Vision & Mission

Vision: Create a decentralized future where early supporters influence innovation, growth, and success.

Mission: Empower early adopters by providing exclusive access to our token before the public launch, offering staking rewards, NFT integration, and a strong community focus.

3. Problem Statement

The crypto space lacks:

- Strong community-driven meme tokens with real utility
- Accessible staking and reward mechanisms for early adopters
- Transparent, secure, and audited token launches

FROG Token aims to bridge these gaps.
